## Smoke, mirrors and madlibs: How to break news while you sleep

Around 6:25 a.m. I was awakened by a jolt from slipping tectonic plates. The tremor didn't last very long, and as soon as my window stopped rattling my first thought was to check for an email.

Here it was:

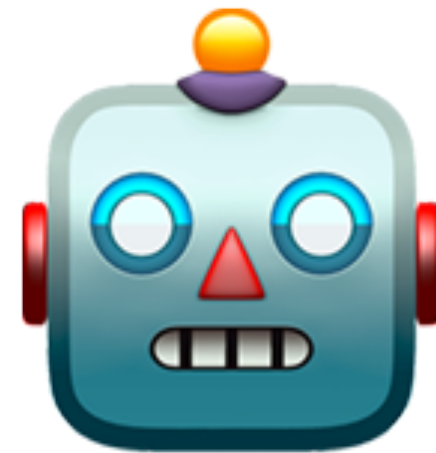

L.A. Now: Ready for copyedit: Earthquake: 4.7 quake strikes near Westwood, California

This is a robopost from your friendly earthquake robot. Please copyedit & publish the story. You can find the story at: [...]
